DETAILED ACTION

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Huggins.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 19-25 and 31-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Huggins in view of Park et al. .

The patent to Huggins discloses all features of the claimed invention except for the use of the device on an aircraft control surface sensing system. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the device of Huggins on an aircraft control system as taught by Park et al. in order to control the surfaces.

Claims 26-30 are allowed.
